

A vibrant street scene in a small town. The street is lined with parked cars and buildings. American flags are flying from poles along the sidewalks. Pedestrians are walking across the street. The sky is clear and blue. The overall atmosphere is bright and lively.

# RESILIENCY FUNDING AND THE IIJA

New and existing grant programs aim to categorically shift the focus from reactive spending and toward research-supported, proactive investments in community resilience. Ayres provides resources – from grant writing to free educational tools – to help small communities create more resilient futures.

Ingenuity, Integrity, and Intelligence.

“Scott (Wilson) and his team of professionals will leave no stone unturned, and are relentless in their pursuit of all available grants. They know where to find grant money nationwide. They keep in contact with the people in charge of the grants process for status reports on pending grant applications. They do everything in their power to secure grants for whoever they are working for.”

Jonathan Sbar  
City Attorney, City of Marinette, WI

## IIJA RESILIENCY RESOURCES

Funding is flowing through the Infrastructure Investment and Jobs Act (IIJA). Potential financial and technical assistance resources for resiliency include:

- FEMA Flood Mitigation Assistance Grants
- FEMA Building Resilient Infrastructure and Communities (BRIC)
- FEMA Dam Safety Grants
- Building Codes Implementation for Efficiency and Resilience Grants
