Funding invested in
improved water quality

AVRES

WATER QUALITY FUNDING AND THE IIJA

Communities may find it difficult to obtain capital to construct improved water supplies. We can help communities develop detailed plans that will open the door to funding water quality projects with a loan, a grant, or a combination of the two.

Ingenuity, Integrity, and Intelligence.

Good to Know

IIJA is the **single largest investment in water** that the federal government has ever made.

10M households and **400K schools and child care centers** lack safe drinking water.

IIJA WATER QUALITY RESOURCES

Funding is flowing through the Infrastructure Investment and Jobs Act (IIJA). Potential financial and technical assistance resources for water quality include:

- Emerging Contaminants Grant Programs
- Clean Water State Revolving Fund
- Drinking Water State Revolving Funds
- WaterSMART Grants
